

Pilibos Wildlife Area

Dove Hunting Opportunities 2008

The Department of Fish and Game, through its Game Bird Heritage Program, is offering dove hunting opportunities on the Pilibos Wildlife Area. This hunt is made possible through the purchase of an upland game bird stamp by hunters. Approximately 60 acres of safflower was grown specifically for doves.

Special rules are in effect and are listed below:

1. A drawing will be held to hunt this area on the **first two days** of dove season (September 1 and 2, 2008). After September 2 and for the remainder of both early and late dove seasons, the area (except for the closed zone) will be open to dove hunting. A permit is required and may be obtained at the parking lot. The permit is self-validating and must be returned and deposited at the registration booth before leaving the area.
2. Parking is allowed **only** in the designated parking lot. Do not block any roadways.
3. Land adjacent to the hunt area is private property. Trespassing on neighboring properties, blocking roads, littering or other complaints from landowners may close the area to future hunting.

Your cooperation is appreciated by the private landowners and other sportsmen. If you have any questions, please call the Department of Fish and Game at (559) 243-4005, extension 133. Good luck and good hunting.
